History/Achievements

The manufacturer is part of a group of companies. Due to growth within the group they required more workbenches to match the existing ones they have purchased from BenchMaster in the past. All of the benches purchased are super heavy duty workbenches due to the work being carried out on the worktop. Additional accessories such as 5 drawer units to store equipment and louvre panels have been included so the operator can have all the tools required on the workstation. Due to the long standing relationship and quality of product the manufacturer continues to purchase the BenchMaster product. The lead time to manufacturer and dispatch the super heavy duty workbenches are the key part to the successful relationship BenchMaster have with the manufacturer.

The Work/Description

2 x 1575WS - 1500mm long x 750mm deep x 915mm 2mm galvanised steel over 45mm solid wood top super heavy duty workbench with a blue frame, 5 drawer unit (painted blue) support bar, louvre panels and bottom shelf.

2 x 1575WS - 1500mm long x 750mm deep x 915mm 2mm galvanised steel over 45mm solid wood top super heavy duty workbench with a blue frame, 5 drawer unit (painted blue) support bar, louvre panels, steel backboard and bottom shelf.

27 x 1275WS - 915mm long x 560mm deep x 915mm 2mm galvanised steel over 45mm solid wood top super heavy duty workbench with a blue frame, 5 drawer unit (painted blue) support bar, louvre panels and bottom shelf.

7 x 1875WS - 1800mm long x 750mm deep x 915mm 2mm galvanised steel over 45mm solid wood top super heavy duty workbench with a blue frame, 5 drawer unit (painted blue) support bar, louvre panels and bottom shelf.

The results

The manufacturer maintain an excellent relationship with BenchMaster. Due to growth their requirements for workbenches has increased over the past few years. The lead time and quality finish, plus the fact they come ready to use (no assembling required) has played a major part in BenchMaster continuing to supply workbenches to the customer. The solid workbenches can take up to 1500kg that suits the assemblers to work on the heavy fire fighting equipment and machinery.

Quote / Comments

“The benches have formed an integral part of our 6S improvement program on the shopfloor. They are solid in construction, smart to look at and are very versatile.”
